### ENGLISH DIPLOMAT LOSES HIS FIGHT TO REGAIN HIS HEALTH

Lord President of the Council Dies From Pneumonia

### OPERATION FAILS TO SAVE HIS LIFE

Regular Bulletins of Doctors Do Not Name Malady

(Associated Press)

LONDON, March 20.—Death was claimed the Marquis Curzon, of Kedleston, lord president of the council and former foreign secretary. The end came at 5:35 o'clock this morning, after a fight against pneumonia, which developed following his operation of two weeks ago.

The marquis was 66 years of age. The first intimation of the break in his health came on March 5, when he collapsed while dressing for a public dinner at Cambridge, at which he was to have delivered a speech.

The collapse was marked by faintness and a nasal hemorrhage.

An operation was performed four days later in London, but the nature of the trouble was not given out. Regular medical bulletins recording his condition also failed to name the malady, but "bladder trouble" was generally given as the cause of his collapse.

Lady Curzon was Miss Grace Hinds, of Decatur. She was born in Huntsville, the daughter of Mr. and Mrs. J. Monroe Hinds, who at the time was minister to Brazil. The family removed here when the future wife of Britain's war lord was a young girl and resided here a number of years.

When Miss Hinds was about 14 or 15 years of age, an uncle, who was a wealthy tanner, with extensive holdings in South America, came to the United States and persuaded the family to permit him to take Miss Hinds with him abroad. She made her home in South America after that, marrying a man named Duggan, and his death occurred about the time of the death of Lord Curzon's first wife, Lord Curzon and Mrs. Duggan were married in London.

Lord Curzon was one of the foremost figures of Europe during the world war. Lady Curzon also was active in war work and was decorated and made a dame of the Grand Cross of the British Empire because of her work.

PARIS, March 20.—Free for all rights, such as probably had never before been seen in the chamber of deputies, broke up this afternoon's session.

The disturbance arose after Premier Herriot, in defending the government's policy in religious matters said:

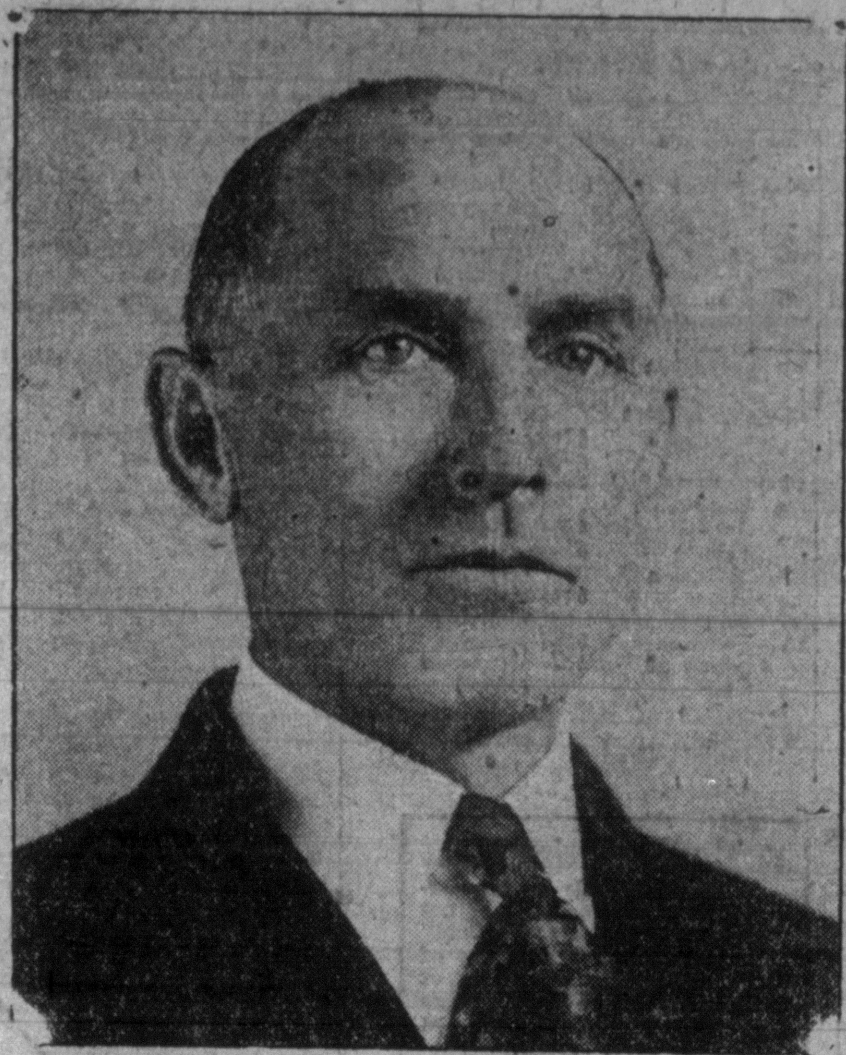

"We accept and welcome Christianity in its pure forms, but not the intransigence of bankers."

### NOTED MINISTER TO CONDUCT REVIVAL AT CENTRAL METHODIST

DR. L. D. PATTERSON

Central Methodist church considers it is indeed fortunate in having Dr. L. D. Patterson engaged for a two weeks revival campaign beginning March 29th to April 12th. Dr. Patterson is one of the outstanding preachers of Southern Methodism. He received his college degree at Birmingham-Southern and his theological work at Vanderbilt university. When he had finished his graduating address at Vanderbilt, the dean of the theological department said, "That is the greatest address delivered from this platform in twenty-five years."

For a number of years Dr. Patterson was a missionary in Sung Kai, China. Since his return to the states he has been engaged in evangelistic work and is doing special work for the Centenary commission. His special work in the Centenary interest has been in speaking before annual conferences of Southern Methodism and addressing other meetings. He has had broad experience in travel and has spoken all over Methodism. He is characterized by enthusiasm, devotion, and spiritual power.

Other members of the evangelistic party are Rev. A. L. Branscomb, university pastor at Tuscaloosa, who

will lead the singing. Mr. Branscomb is a very fine soloist and is considered one of the best leaders of congregational singing. Mrs. R. M. Lindsey is a graduate of Scarritt Bible and Training School. She possesses a very attractive personality, and will do special work with the young people and women.

A thorough organization has been intact and doing efficient work ever since the special campaign has been announced two months ago. Prayer circles have been in progress in five districts of the city for a month. A religious survey has been made and a large band of personal workers are looking after the details in this department.

Expectations are very high as to the ultimate outcome of this campaign. The goal set by the board of lay activities is "At least two hundred won for Christ and the church by Easter." The entire party of workers will arrive on Saturday, March 28th and will be in the first service on the following Sunday.

The pastor and members of the congregation of the Central Methodist church are extending a hearty invitation to friends and the community to hear this great preacher and enjoy the inspiration and help of these special services.

### KNOXVILLE MAN TO SPEAK AT CHURCH

J. H. Anderson, a prominent layman of Knoxville, Tennessee, will be the speaker for Central Baptist church at the 11 o'clock service Sunday morning. Mr. Anderson is one of the most successful business men in this country. When a young man he borrowed five hundred dollars with which to purchase the stock of a small merchant who had become bankrupt. With this stock he began his business career. From the beginning he was a tither, giving one-tenth of his income to the Lord. His success in business has been phenomenal. He is now president of the Anderson, Dulin & Varnell company of Knoxville, Tenn., which owns 45 stores.

As he grew wealthy Mr. Anderson increased his gifts to the Lord's work from one-tenth to larger proportions of his income, and for several years he has been giving his entire income to the Lord through the churches. He contributed \$200,000 to the Seventy-Five-Million Dollar campaign. And during the same time gave \$150,000 to help build the First Baptist church of Knoxville, and \$30,000 additional for a pipe organ. He is the largest contributor to the Baptist 1925 Program, and in

eral missionaries on the foreign fields.

Mr. Anderson is president of Matlock's Cash Store of Albany and to that extent one of the local citizens. It is hoped that the people of Albany will take advantage of this opportunity to get acquainted with this consecrated Christian business man, and to hear his message at Central Baptist church next Sunday morning.

### Circuit Court To Convene On Monday

The circuit court of Morgan county, Judge James E. Horton, presiding, adjourned on Thursday afternoon to again be in session on Monday when the non-jury docket will be taken up.

The court has been in session for five weeks and during that time has disposed of some notable cases, both on the civil and criminal docket.

### Program Planned By the B. Y. P. U.

The intermediate B. Y. P. U. of the Central Baptist church will put on a demonstration program at the Antioch church Sunday afternoon at 3 o'clock. The intermediates are expected to be present at the church at 2 o'clock, a car committee having been appointed to provide means

### ORDINANCE WILL BE DRAWN TO PROVIDE PLAYS' CENSORSHIP

No Further Action Now Thought Likely On "White Cargo"

### SHOW CRITICIZED BY EXECUTIVE

Mayor Carswell and Police Attended Performance

An ordinance, providing the machinery for the exercising of some kind of censorship, if deemed necessary, over productions offered at local theatres, will be drawn and introduced in the Albany city council immediately, it was stated today by Dr. F. L. Carswell, mayor of Albany.

The announcement by Mayor Carswell today followed the appearance at the Masonic theatre last night of "White Cargo." The company's representatives appeared Thursday afternoon before a committee at the Masonic and outlined the theme of the play to his hearers and answered a number of questions by those present, regarding lines and scenes in the production.

The committee members pointed out that there was a state law of Alabama, prohibiting the use of profane or obscene language in the presence of females and the company representative insisted that the play was not profane nor obscene.

It was stated today that no further action in connection with "White Cargo" was likely but that it was very likely that some kind of municipal machinery would be established, to provide an agency for censoring all productions, if there is any reason to believe that the productions might be offensive.

Dr. Carswell and several Albany officers attended the showing of "White Cargo" last night. The chief executive today criticized the play, declaring it reminded him of the cheap "Bowery productions" of years gone by, "or cheap time novel."

"The manager of the company asked me what I thought of the play," Mayor Carswell said. "I didn't have the heart to tell him. I like to say pleasant things to people, if I can, but if they are insistent, I will tell them the truth, as I see it."

No play here in recent years has aroused such widespread discussion as has "White Cargo." These discussions culminated late yesterday in the meeting of the committee at the Masonic theatre, at the request of Mayor Carswell, to seek to find just what the play was. The play was attended by a fairly large crowd last night.

Manager Ratliff, of the local theatres, stated today that the request of the committee yesterday, a number of lines in the play were "cut," the elimination resulting in the deletion of about 25 minutes of the performance.

Manager Ratliff declared he would make every effort to give the local public performances which would be inoffensive to the public.

### THE BRIDGE BOND ISSUES ARE GOING OVER THE TOP WITH A WHOOP. NOTHING CAN STEM THE TIDE.

TO THE CITIZENS OF ALBANY-DECATUR:—

At a meeting held in the rooms of the Albany-Decatur Chamber of Commerce on Tuesday evening February 24th at which meeting the undersigned were present and took active part in determining that the bridge across the Tennessee River at this point must be built and that the most feasible way of raising the funds for the purpose of obtaining the aid of the State Highway Commission in building it was the issuance of a series of bonds to the amount of \$100,000.00 by the municipalities of Albany and Decatur.

The governing bodies of these municipalities very properly and promptly put the necessary machinery in motion for submission to the qualified electors of the cities the question as to whether or not each city should issue its bonds in the sum of \$50,000.00 to run for a period of twenty years and bear interest not exceeding 6 per cent per annum and on the 7th day of April next the qualified electors of these cities shall have the privilege of deciding that issue.

Perhaps the voters of these municipalities may not for years to come, have an opportunity of deciding an issue that means so much to this community, and therefore it becomes the duty of each and every citizen of Albany and Decatur before exercising the right of suffrage in this issue to determine for himself and for herself whether or not this community shall take a backward step, or whether or not it shall take up the slack and take one of the most forward steps that it has taken for many, many years.

ON YOUR DECISION DEPENDS ALMOST THE VERY LIFE OF THIS COMMUNITY.

The people of the great State of Alabama are anxiously watching and waiting for our decision, for it means the routing of thousands upon thousands of tourists through this State and the ultimate completion of a great Highway system throughout the State, and the linking together of that Highway system with the other important Highway systems of the country, so that the mind of man can conceive at this time only a meagre portion of the benefits that will accrue from the construction of this missing link and the welding of it into the great Highway system of the country.

The building of a bridge at this point will do more to advertise this community to the outside world than any one thing that could be done, and therefore in a most material way will benefit every property owner in these municipalities and beyond their confines.

Better, cheaper and more extended facilities will be opened up for the marketing of crops, fruits and vegetables, thus in a most substantial way forwarding the agricultural interests.

A more than doubled territory will be provided for both the wholesale and retail merchants, and added to this the tremendous increase in the tourist trade, will do more to bring about that PAY DAY EVERY DAY, than any other thing of which we know.

The construction of this bridge will consume a period of about two years which means that the unemployed of these cities can safely count on employment for that length of time, and it also means that anywhere from \$250,000.00 to \$300,000.00 will be spent here during the construction of the bridge for lime, sand, gravel, cement, labor and so forth.

The undersigned believe that it would be very difficult to raise \$100,000.00 in these cities at this time by popular subscription, and that therefore the only feasible way to raise this money is by the issuance of bonds of these municipalities, and we respectfully urge the citizens to work and vote for the bond issues, for a defeat of the measure at this time might mean the loss of the bridge for years to come and perhaps to the present generation, as under the law, one year must elapse before we could be given an opportunity to vote on the question again, and in that time the opportunity which is now knocking and asking us to embrace it will have passed by and on to another community beyond any question of doubt.

It should be unnecessary for us to have to appeal to a single voter in either of these municipalities to not only support, but to support and work for and talk the bond issues with all the enthusiasm which he can command, and to see that on the 7th day of April next these municipalities go over the top 100 per cent for an institution that will be in full blast and working for us and the State of Alabama twenty-four hours every day in the year, and for an institution that in our honest and candid opinion will do more than any other one thing to inject life and hope and pep and vim into us, and that will be a forerunner of perhaps greater things for us in the future, and that will be more than substitute that trade and that business recently lost by us to neighboring communities through a force of circumstances over which we had no control.

While the other half of the world is solving cross word puzzles, let us build the bridge.

THE BRIDGE MUST BE BUILT, THE BRIDGE WILL BE BUILT.

### SALVATION IS THE SUBJECT OF VISITING EVANGELIST HERE

"For I am not ashamed of the Gospel of Christ; for it is the power of God unto Salvation to every one that believeth" was the text last night of Rev. Gregory who delivered an interesting sermon at the First Presbyterian church, where revival services are in progress.

Except from the sermon follow:

1. All men need salvation. All men, women and children need salvation for in their natural state, all are lost. Infants and irresponsible children who die are regenerated and are saved. Responsible people, unless they have become regenerated are lost. Salvation is the imperative supreme and absolute need of every human being.

2. All men can have salvation. All men need it and care have it but there is only one way to get it. God never sent a man to Hell. Man sends himself to hell by rejecting the Savior. Those who believe will at last walk the golden streets of Jerusalem. Those who reject will go to doom.

"Whosoever will let him take of the water of life freely."

3. How to get it. Salvation of the soul is the most important thing to be considered and the plan of salvation is the simplest thing in the world. "What must I do to be saved?" "Believe on the Lord, Jesus Christ."

### STORM DISTRICT YET PROSTRATED; PLANS FOR RELIEF MOVING

Check Up Today Places the Toll at Between 800 and 900

### MANY BODIES UNRECOVERED

Major Operations Are Performed Without Anesthetics

(Associated Press)

CHICAGO, March 20.—Still prostrated but with the hurried efforts at temporary relief supplemented by the arrival of trained workers, supplies and medicine, the storm stricken area of the Ohio valley today continued to count the terrific loss of life and property of its greatest tornado catastrophe.

Revised casualty lists indicated little change from the first hectic estimates as Wednesday afternoon's twister plunged its destructive course into five mid-western states.

Fairly systematic checking in 85 towns and cities in the storm's path, indicated a death list of between 800 and 900, but approximately \$300 injured, and many other thousands homeless.

It was believed, however, that many bodies were still to be recovered as the entire towns were demolished and isolated. A check of the devastated areas had not progressed far enough to permit even a rough estimate of the property losses, although sums of millions were mentioned from many points.

Officials of the Red Cross in Washington characterized the disaster as the greatest since the Ohio valley flood of 1913, when \$500,000,000 of property was laid waste.

Additional light on the characteristics and behavior of the great tornado was provided by Prof. Henry J. Cox, government forecaster at Chicago, who called it a typical mid-west spring-time storm. It originated over the Gulf of Lower California, he said, passed harmlessly over Colorado, dipped to Arkansas, and then took a path of least resistance along the Ohio Valley. There its major force was spent and it rushed off on a high wind in the direction of Iceland.

Prof. Cox explained the barometric low pressure areas, starting from a vacuum in the air, due to the warmth of spring sunshine, developed into tornadoes only in the spring when the warm whirling currents in the air fight colder waves from the north.

He added that the storm was not one, but several tornadoes, each varying from a mile to five miles in length. These caused the damage and not the great cyclone in the air.

Sporadic reports of the storm's course, after its five hour dip to earth, from eastern Missouri to western Indiana came yesterday and last night from Great Lakes ports. Some damage to shipping and property was reported near Buffalo, N. Y. The tornado then moved north-eastward through the St. Lawrence valley and to the Atlantic coast, dissipating as it went.

As relief measures got underway, stories of the almost unprecedented misery in the area came in from all points. Temporary morgues and hospitals were filled to overflowing. In some instances doctors performed major operations out of doors or in roofless buildings, without the aid of anesthetics.

## Community Club Is Entertained

HILLSBORO, Ala., March 20—The Community Club of Hillsboro gave a lovely St. Patrick's party at the home of Mr. and Mrs. Spence Hardin. The guests were received by Mr. and Mrs. Spence Hardin and Mr. and Mrs. Virgil James.

The hall was beautifully decorated in peach blossoms and St. Patrick emblems. Punch was served here by Miss Reuna Mae Duncan, the club president.

Little Miss Mary Sue Hardin, dressed in gay Irish costume dropped Irish dancing girls and boys from the stairway as place cards for the

guests. When the guests went to their various tables they found attractive Irish score cards and cards for the evening's entertainment. Five games were played. Mrs. L. S. Terry won the ladies' prize. Virgil James won the gentlemen's prize.

After the games the guests were invited to the dining room which was artistically decorated in Irish emblems.

The chandelier was ruffled in shamrocks with white streamers hanging over them. The table was decorated with harps, shamrocks, Irish boys and girls, and a large green basket of violets and white narcissi with Shamrocks hanging from the handle, was in the center. Shamrock cream and cakes were served with nuts and small green baskets of mints.

## 1924 COTTON CROP ALMOST A RECORD

### Nearly Million Bales Produced In Alabama

(Associated Press)  
WASHINGTON, March 20.—Cotton production in the United States for the 1924-25 season amounted to 6,638,751 equivalent 500 pound bales, exclusive of linters, the census bureau announced today in its final ginning report of the season.

This is the largest production since 1914. It is 3,479,080 bales larger than the 1923 crop. In only one other year since the record crop of 16,134,930 bales in 1914 has production been within a million bales of the present crop. That was in 1920 when there were 13,430,803 bales. Alabama produced 985,221.

### Tip For Beginners.

Solve this puzzle by comparing the synonyms listed in the "Horizontal" and "Vertical" columns with the number of spaces extending crosswise or downward on the diagram, as the case may be. If a word occurs to you meaning substantially the same as the synonym and the correct number of letters to fit in the spaces between its number and the first shaded stop following, write it in lightly. Work away the small words, the "easy" words, first, and they will give you plenty of clues to the difficult ones.

## SINNERS IN HEAVEN

(CONTINUED TOMORROW)

Barbara walked slowly into the hut. But to her, also, food seemed impossible just then. That moment's illumination had opened up a new world for her, too—a world which, it seemed, she was never to enter! . . . With a little sobbing breath she went into the sleeping hut and threw herself face downward on her bed.

For a long time neither alluded to this conversation. A new chord had been struck between them, too deep for idle talk. A subtler difference, a shade more of seriousness, came into their relations. The shadow cast by the mountain peaks enveloped them. Try as they would, they could never quite free themselves from it.

Distractions of any sort became urgent; but to find them, in this small island, was no easy matter. However, Alan, after mentally viewing the land, took what frail material there was and wove it into ropes of support. That the ropes might break he could not foresee.

He turned once more, in pathetic hope, to the natives.

During the months since their first visit to the settlement, he had come to occupy the unique position of a semi-divine Overlord. His orders, issued at first in the spirit of bluff, were obeyed. This at first surprised, then amused, him. After a time, it afforded him intense interest. His orders regarding cleanliness were receiving extraordinary consideration; irrigation work had been undertaken. Now, he plunged with new zest into this novel training of prehistoric minds. He ordered the cultivation of taro to be re-instituted; tapestry-weaving from reeds to be revived. All this originating from fear, not inclination, slowly awakened the natives' interest, which, increasing, caused much of their lethargy to vanish.

Within a few weeks, the last signs of a threatening new epidemic of sickness vanished, and the settlement became more wholesome. This being attributed to the what man's magic, their fear blended into a crude awesome affection, which struck Alan as pathetic. Gradually his visits became hailed even with delight. For, in matters of dispute, Chimabahal appealed to him, relying more and more on his counsel. And, swayed by none of the opposing elements, he dealt with a severe justness, yet humaneness, which they found both novel and attractive. Withal, he braced them, stimulating their latent powers, much in the same way in which he had stimulated Barbara, by the mere force of his own vitality.

Her own interest in these people grew apace. From Alan she learned some of the dialect, very soon being able to speak a little herself. Sometimes she brought the children odd bits of ribbon or lace, which produced an excited uproar. Weeks later, she used to see these scraps adorning some woman's dark form, with ludicrous incongruity.

But, among these "children of nature," as among other children, not of nature but of civilized education, there existed under-currents of strife, ambition, ill-feeling. These were responsible for a division of which Croft soon became aware. The more savage factions waxed impatient for Baboona to be their chief. Only the superstitious awe in which a chief is held saved Chimabahal from being despatched unceremoniously to the spirits of his murdered sons. The result of that would have been civil war, and deadly peril for the two white people. For Baboona and his friends were not partial to these strange newcomers who forced them to work and frustrated their savage tendencies. Croft

E. L. Simpson, in a letter to the mayor and board of aldermen of Decatur, suggests the triangular tract, between Lee and Bank street, near the freight depot, as a site for a park.

It is likely the addition to the Decatur station will be built on the south side of the station, instead of the north side, as originally planned.

**A DAILY PRAYER**—We pray Thee for the wisdom and the patience to keep us from interfering with the pattern for our lives that Thou are weaving.

"Read 'em and weep" is the crapsshooters bluff. "Seed 'em and reap" is the promise of life.

Between 1816 and 1817 the influx of immigrants to Alabama was so great, the Indians and original settlers were unable to furnish enough corn. The situation, a thirsty friend reminds us, is not improved.

The wheat farmers, no doubt, wish the national campaign would go on forever. During the fight for re-election of the president, the price of wheat went up and up. Safely in office, the price tumbles.

A St. Louis scout lends encouragement to Birmingham baseball fans by telling them all they need for a pennant contender is a pair of excellent pitchers. That is about all any baseball club needs these days.

Methodists of Athens worshipped for the first time in their new church Sunday. The edifice is a credit to the members of the congregation and of the people of the entire community.

Up in Ann Arbor, Mich., they are blaming the "friendly handshake" for spreading influenza germs. They may be right, but the "friendly handshake" is worth the risk. It does a world of good, usually to both when a friend stops another and shakes his hand. It is an unimportant action, within itself, but who would desire to abolish the custom?

**POWER LINE FROM HOPGOOD "CUT IN," LET US HOPE FOR AN IMPROVEMENT**

The power line from Hopgood has been "cut in" and Albany-Decatur are hoping for a very great improvement in the service rendered them by the Alabama Power company. The company believes that their service will be improved by the addition of the line from the west; they believe in the future growth of the Tennessee Valley and are backing their judgment with money.

The service the power company has rendered here in the past has not been satisfactory. In fact that is a mild description of what the situation has been. Perhaps the company has done the best it could with the facilities at hand, but local industries have suffered severely from interruptions of the power circuit.

Officials of the power company appear to believe that these interruptions will be materially lessened, if not altogether eliminated by the "cut in" of the new line, which brings current here from the west, whereas before current had come in from the east only. They admit that times might come when storms or other acts of providence might result in both lines going down at the same time. They believe, however, that such a coincidence is not likely.

If the new line does result in giving the people of the Twin Cities uninterrupted service, a long step will have been taken toward bringing about a better spirit between the company and the people it serves. The citizens of Albany and Decatur do not desire to be unreasonable about things. Taken as a whole, it would be difficult to find a more fair minded community, but the Twin Cities suffered financial losses and much inconvenience when the power was interrupted.

**HOW THE COMPANY FELT BADLY TOWARD THE POWER COMPANY**

W. E. Shackelford

meet the power company half way, in fact they will go more than half way, in establishment of a spirit of cordial understanding and sympathetic co-operation for the up-building of this section, if the power company will render service to their patrons here.

**TAX REDUCTION MAY BE POSSIBLE WITHIN NEXT YEAR, GREEN BELIEVES**

Tax reduction is a subject dear to the hearts of every citizen, to say nothing of their pocketbooks. The statement of Chairman William R. Green of the house ways and means committee, that he sees no reason why another \$300,000,000 reduction cannot be placed in effect next year, will be received with the wholehearted hope that he knows whereof he speaks.

Mr. Green gives logical reasoning for his conclusions. He points out that it is the intention to have the new tax law passed in time to apply to taxes payable next year. If the proposed \$300,000,000 cut is actually made, the administration of President Coolidge can lay claim to the honor of having reduced taxes three years in succession. Which honor the public will joyfully award him, if the pressure on the bank account is lessened.

Mr. Green says it is estimated that there will be a surplus of \$373,000,000 for the fiscal year 1926. The exact amount probably will be known by the time the house committee begins the task of drafting the new revenue measures this coming October.

"The original Treasury estimate of the surplus for the fiscal year of 1925, which ends on June 30 next, was about \$68,000,000,00 he declared. "The receipts from taxes have been larger than were anticipated, principally by reason of the improvement in business generally. Some expenses also will be less, while, on the other hand, some are likely to be larger than was anticipated of which the refund of taxes is an instance. On the whole I think I am safe in saying that the surplus at the end of this fiscal year will exceed \$100,000,000."

"The present revenue law went into full effect with in the beginning of this calendar year, and great reductions were made in the rates on moderate incomes, which were fixed much below those of the original Mellon plan and far below those of last year, even after the 25 per cent refund was made. In many cases the payment this year will be less than half that of a year ago under the same circumstances. Until the new returns, which are now being made, are received by the Treasury and tabulated it is impossible to ascertain the effect of the present rates."

The economy program of President Coolidge has called forth some real gratitude and some "teasing." The limitation of towels for use by the white house office employees furnished the basis for any number of quips, but if his efforts result in cutting Uncle Sam's cost bill, we say "go to it," even to the extent of making the white house employees furnish their own towels or let the grime accumulate on their hands.

**ANDALUSIA CELEBRATES SECOND BIRTHDAY OF THE GROWING ANDALU COMPANY**

The expanding textile industry of Alabama, on which so much attention is being centered at the present time, is reflected again this week in the publication by The Covington News, of Andalusia, Ala., of a handsomely illustrated special edition of twenty pages, celebrating the second birthday anniversary of The Andalu company, manufacturers of athletic underwear. The plant is one of the few of its kind located in the south and its rapid growth, since locating in Andalusia two years ago, is a source of gratification to all Alabamians.

The News says in its introductory article:

The Andalu Company is celebrating its Second birthday at this time. It was in March of 1923 that the Company was incorporated under laws of Alabama with some \$10,000 capital stock paid in, and with machinery installed began its life. The first vision of this institution came to Mr. J. G. Scherf with a long experience and training in the textile line, he saw wonderful possibilities in industrial development offered here, and set out to start this plant as the first of its kind. In fact it is one of very few in the entire South. Mr. Scherf saw that labor, climate and power all made the situation ideal, and first convincing a few close friends of this fact organized this company on a small scale. Even his vision did not compass the remarkable growth which the plant has experienced in these two years.

It will be recalled that over in Huntsville, the Lowe mills recently announced a program of expansion. The Cooper-Wells company here has added many machines since going into their own plant; the Albany Textile mill, for a long time the only silk mill in the South, has increased its output. In Opelika the Pepperel company will build a tremendous plant.

Constantly we are being given concrete evidences that Alabama is rapidly forging to the leadership in textile manufacture. The time cannot be far distant when this state will rank with the leaders. The advantages the News points out in Andalusia are probably equally as good in nearly every other location in the state. The combination that Alabama offers outside manufacturers is unbeatable.

**We Are Anxious to Help****Salvation Is the Subject of Visiting Evangelist Here**

(Continued from page one)

Christ and thou shalt be saved."

Home, education, place and position in the world, and power are insignificant in comparison with salvation. People who are educated can do more in the world than any other class of people yet education does not come before salvation. Education, home, power pertain to this life. Salvation helps to obtain these things and later a place in heaven. Salvation is the great need of all because all men have souls. God's mind is full of us, you and me, because we have an immortal soul. "What is man that thou art mindful of him?"

"For what shall it profit a man if he shall gain the whole world and lose his own soul?" There is nothing we can give in exchange for our soul. This means believe that there is only one Savior, that He is a personal savior. Trust, accept and confess Him as your personal Savior and your name will then be written on the Lamb's Book of Life. Even a half-witted person can understand the simple plan of salvation. Believing on Him, His righteousness becomes ours and our debt of sin is cancelled.

How may we know that we have it?

Some members of the church are in doubt about their Christianity; yet we can be as certain of salvation as we are that a deed to our home is good. When God says He will do a certain thing He will do it. He promises to save us and we may be certain that we are saved. If we are saved we will have the new birth. Jesus asserted to Nicodemus that it must be. When you know, believe and accept Christ as your personal Savior and trust your life to him you are saved, for "Whosoever believeth is born of God." If you are saved you will hate the things you once loved, and love the things you once hated. Once you may have loved sin. If you hate it now you are saved. If you love truth, righteousness and things of God you are saved. If you are a Christian you love God and will do His will; you love your fellow man and want to help him and will do it when possible.

Are you a Christian?

"And they that are Christ's have crucified the flesh."—Gal. 5:24. Does the flesh dictate the policy of your life? If so the flesh has not been crucified. Does the Spirit rule—enthroned in your heart? If so you are saved. You are a Christian. You may know whether or not you are saved.

Senators Ready To Cut Pitching Staff  
Pepper Showing Up Well in Spring Round

The Washington Senators are ready to go to the wire with their teams for the opening of the major league season with the exception of the pitching staff. Harris has a problem before him in working out the team hurling corps. It is said that Johnson, Mogridge, Ogden, Marberry, Zachary, Russell and Reuther are fixtures. McNamara is the best of the rookie hurlers.

What is most surprising is the failure of Stanley Coveleskie to round into shape. Coveleskie has been looked upon as one of the premier twirlers of the league, but this year he is on the doubtful list. Brilliant, one of the most promising of last year's rookies has failed thus far this year and it is likely that he will receive the pink slip before the first game is called.

The Senator squad remains almost as it did when the last ball was pitched last year. A team without a great offensive strength so far as batting is concerned, but a team that fights to the last ditch.  
Rice, McNeeley, Goslin and Leibold will be the outfield choice.  
Harris, Peck, Bluege, Judge, Shirley and Adams are practically certain on the infield positions.

Raymond Papper, former Albany high grid and baseball star, is going well at the University of Alabama in the early training of the Freshman squad. Pepper is a powerful hitter, has a good arm, a good defensive man and can be called upon to do the pitching stunt. The entire team is said to be an outfit of hard hitters and good fielders and it is believed that Alabama's reputation for good baseball will be again sustained.

Pepper is likely to be a factor in football before he leaves the university while his position on the diamond is even more assured.  
The big fellow needed the rough edges taken off his play, the natural ability was all there. Local sport followers are watching his progress with keen interest realizing that he can make a name for himself if given a chance.

The Pittsburgh Pirates are going to depend upon speed this year with the fastest infield in the league, according to Manager Bill McKechnie. He believes that the Pirates are the fastest team in the league. Cuyler, Bigbee, Grantham, Moore, Aldridge and Neihaus make it possible for the Pirates to present the best crowd of base stealers in the league. The Pirates are going to depend upon speed.

How Doctors Treat  
Colds and the Flu

To break up a cold over night or to cut short an attack of grippe, influenza or sore throat, physicians and druggists are now recommending Calotabs, the nausealess Calomet tablet, that is purified from dangerous and sickening effects. Those who have tried it say that it acts like magic by far more effective and certain than the old style Calomet, heretofore recommended by physicians.

One woman put on 15 pounds in with a swarow of water—that's all. No salts, no nausea nor the slightest interference with eating, work or pleasures. Next morning your cold has vanished and your system feels refreshed and purified. Calotabs are sold only in original sealed packages, price ten cents for the vest-pocket size; thirty-five cents for the large family package. Recommended and guaranteed by druggists. Your money back if you are not delighted. Adv.

## MCWILLIAMS OUT ON A \$2,500 BOND

Negro Released From Jail After the Jury Fails to Agree

Andrew McWilliams, negro, was granted bail in the sum of \$2,500 late Thursday afternoon following the failure of the jury in the circuit court to reach a decision after the case had been tried before Circuit Judge Horton on last Tuesday. McWilliams left the jail on Thursday, where he has been held since the occurrence at Austinville late in January when it is alleged that he attacked Mrs. Cleveland Reed at the Reed residence.

## TWO MORE STREETS MAY BE IMPROVED

Specifications Will Be Drawn and Given to Decatur Council

Sections of two more streets, Wells and Sycamore, may be improved by the City of Decatur. The council, at its regular meeting last night, ordered specifications for the work drawn. These plans will be studied at a future meeting.

The council last night heard ob-

jections to improvements for other street the meeting being designated for that purpose. Only three protests were heard, all from non-residents.

Members of the council derived considerable pleasure from the fact that no protests from local residents were registered.

## Kiwanis Regular Meet Is Enjoyed

The regular weekly meeting of the Morgan Kiwanis club was enjoyed by practically all the members of the club Thursday evening at the Y M C A when a specially arranged pro-

gram was given through the entertainment and educational committee.

The entertainment committee had secured the Y M C A quartet which was greatly enjoyed in several numbers. Henry Hartung, city clerk, a guest of the club pleased in his talk on the work that the club was doing. He declared that they were doing this work in the communities and the section without outside aid and without a great furor about what they were doing.

Mr. A. H. Hanson told the club of the community work of the combined missionary societies of the city and of the establishment of community houses in Albany and Decatur for the purpose of teaching the

gospel and in home training. Mr. Hanson thanked the club for the assistance that had been given the societies in carrying on this work.

S. A. Lynne spoke to the club, as a part of the program of the educational committee. His address covered the law profession, the historical outline of great law cases and the work of the lawyer in the world. His address was greatly enjoyed and extremely interesting. Mr. Lynne's talk was one of a series of "Shop Talks" in which the various business and professional members of the club have been giving during the month.

The meeting was closed following a discussion of plans for the Cullman trip that is to be made on Tuesday.

The guests at the meeting included John Patterson and J. C. High. Each responded to the introduction to club members with appropriate expressions.

## —to build up Weight!

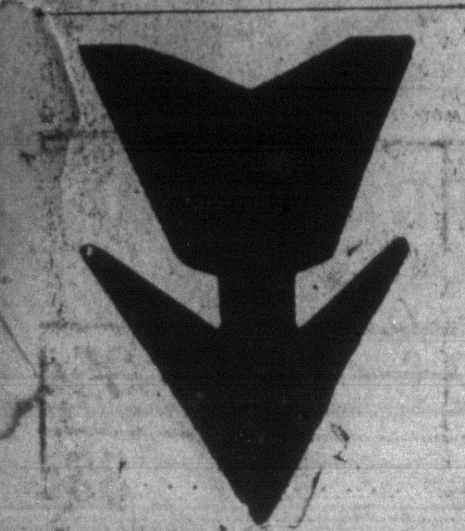

ANY WOMAN, any man, can now have a well-developed face and form. The whole, simple secret of a well-developed form is in the number of blood-cells in your body. You can now forget all the theoretical talk about diet, exercise, fad treatments, food-fats and fat-foods. Nothing is of any use, after all, except blood-cells.

Thin, run-down men and women, with bony necks, sunken cheeks, bony shoulders—all these are suffering from one thing—too few blood-cells. Science has proved that S.S.S. helps to make the rich red-blood-cells, which you need. Your blood is starving for these new blood-cells! Give your blood the blood-cells it needs—take S.S.S. the great scientific blood-cell maker. S.S.S. has done marvels, too, in making beautiful complexions, clearing the skin, making lips rosy red, the cheeks full and plump—because it rids the blood of impurities which cause pimples, blackheads, acne, blotches, eczema, tetter, rash and rheumatism, too. As the medicinal ingredients of S.S.S. are purely vegetable, it may be taken with perfect safety. This is why S.S.S., since 1896, has meant to thousands of underweight men and women a plus in their strength. Start taking S.S.S. today and your great problem, that of your personal appearance, can be solved.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

# Free Soap from Trees!

THE only oils in Palmolive Soap are the priceless beauty oils from these three trees—and no other fats what-so-ever.

That is why Palmolive Soap is the natural color that it is—for palm and olive oils, nothing else, give Palmolive its green color. It is nature's formula to keep that schoolgirl complexion.

Wash, cleanse, launder with any soap you wish. But when beauty is at stake, use Palmolive, the soap made to protect it.

Dear Madam:

Present the coupon below to your dealer. Accept from him, please, at our expense, an extra cake of Palmolive Soap with your purchase of three cakes. The coupon entitles you to this special offer.

The clear, fresh skins you see everywhere today prove Palmolive results... a soap made by beauty experts—more than merely soapmakers—to foster fine complexions. 60 years of study stand behind it.

Nothing is hidden in Palmolive Soap. There is nothing to hide. Men don't paint nature in order to improve it. The only secret to Palmolive is its blending. And that is judged one of the world's priceless beauty secrets.

Now, in justice to yourself, accept this special offer. Present the coupon below to your dealer. He will give you one extra cake of Palmolive Soap free with the three cakes you purchase.

Then note Palmolive results on your own skin—and your children's. See what a difference even a few days will make.
